Progress Reports for
New York City Public
Schools

Updated: January 9, 2012

PROGRESS REPORTS

1. Overview
2. Measuring student performance and progress for elementary and middle schools
3. Measuring progress and performance for high schools
4. Evaluating the school learning environment
5. Peer and city comparisons
6. Additional credit for closing the achievement gap
7. Translating scores into grades

PROGRESS REPORTS

PROGRESS REPORT GUIDING PRINCIPLES

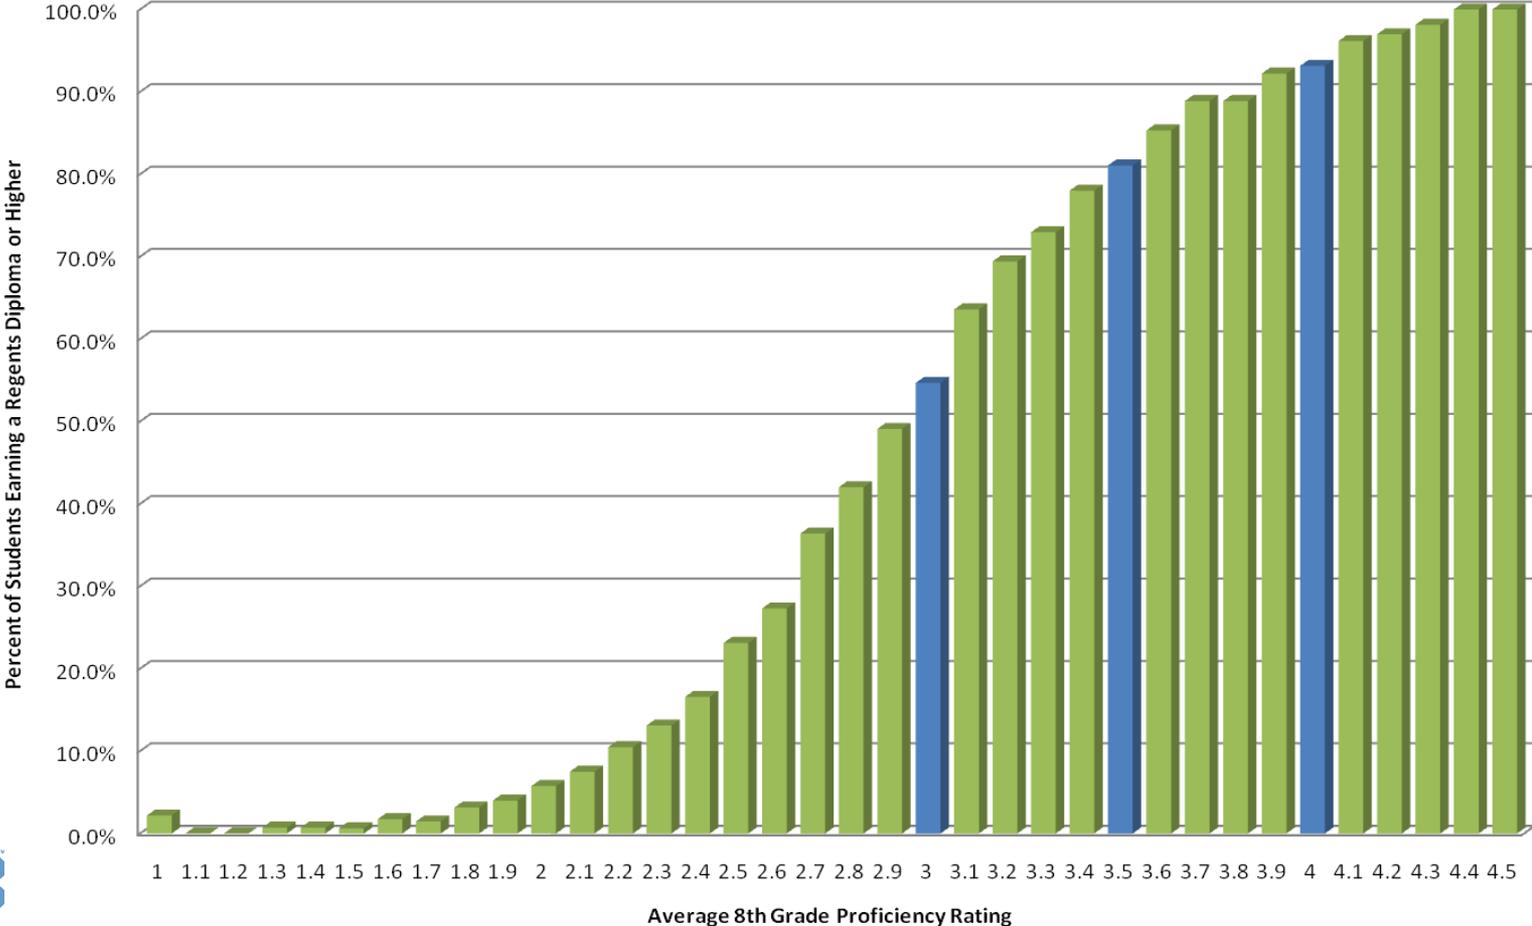

- Measure student outcomes as accurately as possible given the different challenges schools face
- Ensure that schools can verify and re-create metrics so schools understand how they are measured and how they can improve their performance
- Compare school performance to that of “peer schools” (schools serving similar student populations) and all schools Citywide
- Produce outcomes that are minimally correlated with socioeconomic status, Special Education populations, or other demographic characteristics
- Differentiate among schools to support parents in choosing schools and DOE in school leadership and portfolio decisions
- Incorporate direct input from parents, teachers, and students

OVERVIEW OF THE PROGRESS REPORT

The Progress Report measures:

- Longitudinal progress with students (to and beyond proficiency)
- Mastery by all students of state learning standards as required by state and federal (NCLB) law
- Student attendance in school
- Closing of the achievement gap for high need populations
- Desired conditions for learning as assessed by hundreds of thousands of parents, teachers, and students
- Student readiness for high school (and ultimately) college success
- High school graduation and progress toward high school graduation

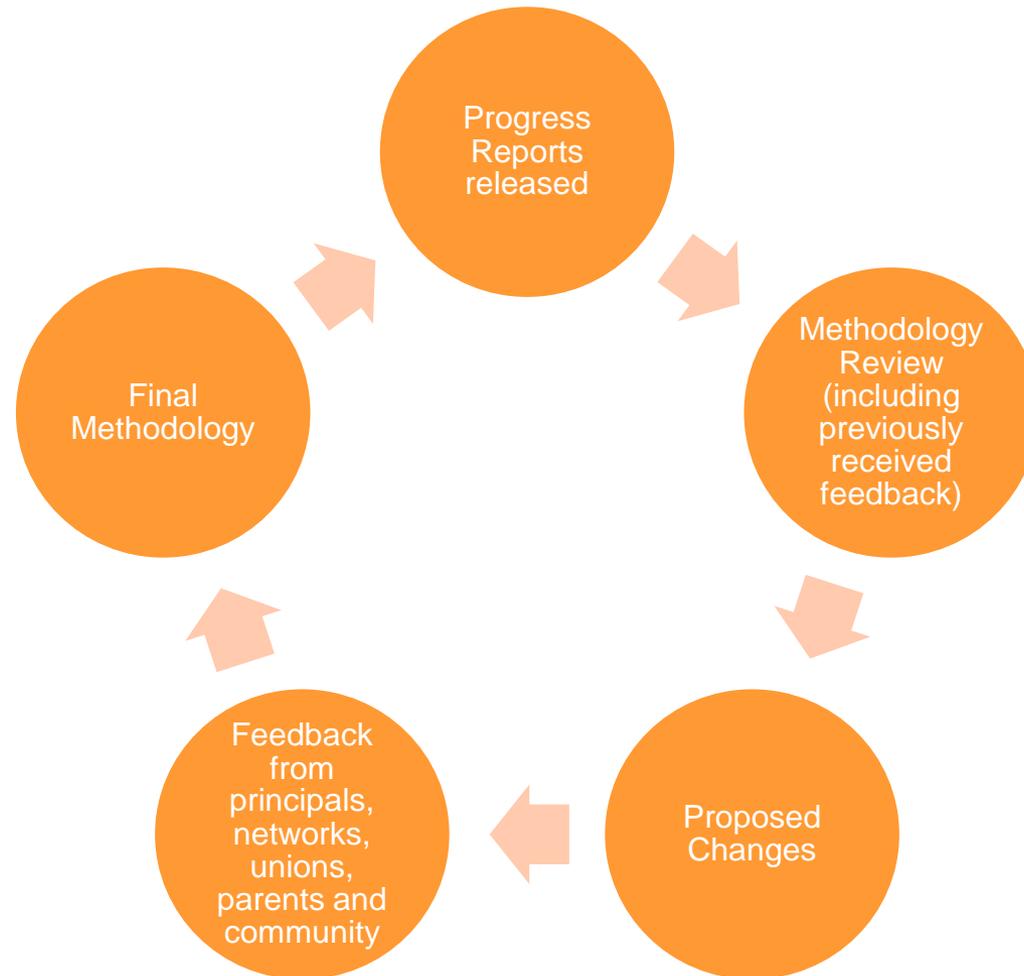

LONGITUDINAL PROGRESS TO AND BEYOND PROFICIENCY IS DIRECTLY RELATED TO SUCCESS IN HIGH SCHOOL AND AFTER

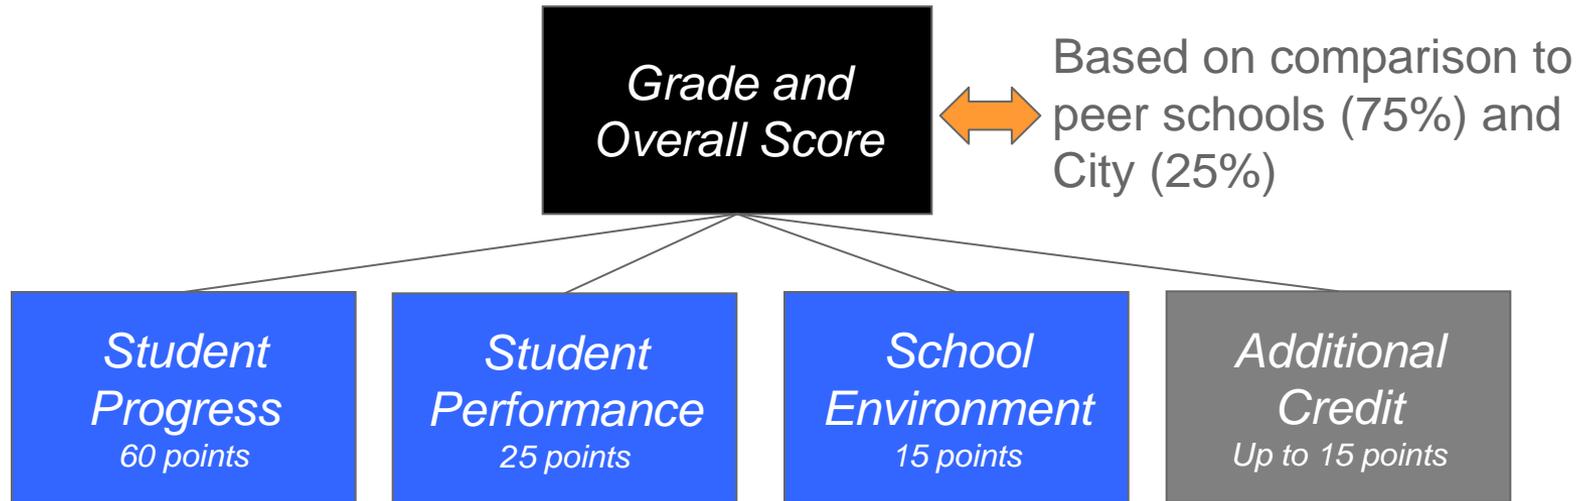

PROGRESS REPORTS HAVE BEEN DEVELOPED FOR MOST SCHOOLS

- The first official Progress Reports were released in Fall 2007 (evaluating the 2006-2007 school year)
 - Elementary/Middle Schools (EMS)
 - High Schools (HS)
 - Transfer Schools (HST)
- Progress Reports for District 75 Schools, Young Adult Borough Centers, and Early Childhood schools were released for the first time in Fall 2010 (evaluating the 2009-10 school year)
- Progress Reports for other school types, such as District 79 programs, are still under development

THE PROGRESS REPORT METHODOLOGY EVOLVES THROUGH CONTINUOUS FEEDBACK

OVERVIEW OF PROGRESS REPORT STRUCTURE

Elementary, Middle, and K-8 Schools

- Student progress on ELA and Math test scores (median growth percentiles)
- Student test scores in ELA and Math (average proficiency and % Level 3/4)
- School Survey results
- Attendance
- Exemplary performance and/or progress on test scores with high need students

High Schools

- Credit accumulation
- Regents completion and pass rates
- Graduation rates (4-year and 6-year)
- Weighted Graduation Rates (4-year and 6-year)
- School Survey results
- Attendance
- Exemplary graduation and/or regents outcomes with high need students

COLLEGE READINESS METRICS REPORTED IN 2010-11

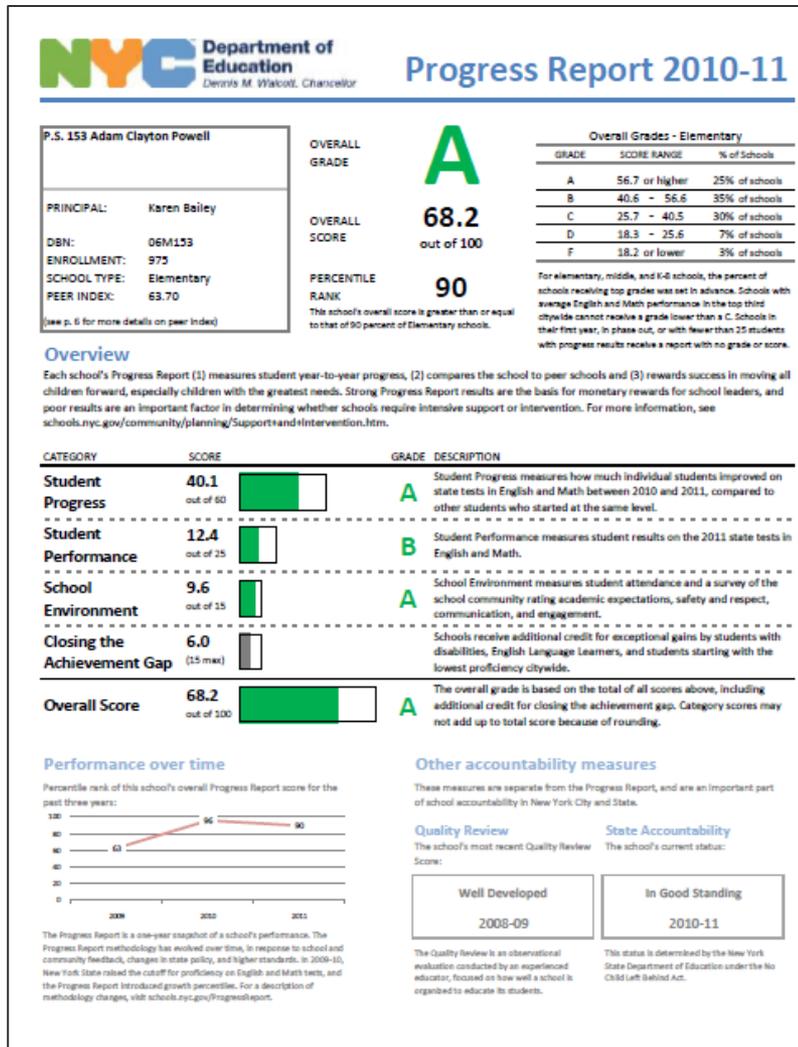

- **College Preparatory Course Index:** percentage of students in the 2011 cohort (all students who entered high school four years earlier) who achieved:
 - > 65+ on Algebra II, Chemistry, or Physics Regents exam, or
 - > 3+ on an Advanced Placement (AP) exam, or
 - > 4+ on an International Baccalaureate (IB) exam, or
 - > grade of “C” or higher in a course for college credit.
- **College Readiness Index:** percentage of students in the 2011 cohort (all students who entered high school four years earlier) who met the standards for passing out of remedial coursework at the City University of New York (CUNY), by:
 - > graduating with a Regents diploma, and
 - > earning a 75 or higher on the English Regents or scoring 480 or higher on the Critical Reading SAT, and
 - > scoring an 80 or higher on one Math Regents and completing coursework in Algebra II / Trigonometry or higher level, or scoring 480 or higher on the Math SAT.
- **College Enrollment Rate:** percentage of students in the 2010 cohort (all students who entered high school four years earlier) who graduated and enrolled in a degree program at a two- or four-year college or university by December 31, 2010.

MIDDLE SCHOOL COURSE METRICS REPORTED IN 2010-11

- **Percentage of Students Who Passed Core Courses:** four separate metrics representing the percentage of students in 6th through 8th grade who received a passing grade in a full-year core course in:
 - > Math
 - > Science
 - > English
 - > Social studies

- **Percentage of 8th Graders Who Earned High School Credit:** percentage of students in 8th grade who have passed a high school level course and the related Regents exam by June of the 8th grade year. All 8th graders are included, regardless of whether they attempted to earn high school credit.

NEW TEMPLATES CLARIFY SCORING AND METRICS

- More detailed explanation of categories and metrics
- Multiple years of Progress Report results
- Detailed explanation of scoring, with examples
- Explanation of peering methodology and more information about peer schools
- For elementary/middle schools, step-by-step explanation of “growth percentiles,” the primary measure of student progress

THE PROGRESS REPORT OVERVIEW

For the second year, we have produced Progress Report Overviews for each school. This report:

- provides a summary of a school's Progress Report results,
- helps families interpret the Progress Report and understand information about school performance.

2010-11 Progress Report Overview

ELEMENTARY and MIDDLE SCHOOLS

For a translation of this overview, please visit <http://schools.nyc.gov/academic/sustainability/tools/report>

School: P.S. 153 Adam Clayton Powell (06M153)

Principal: Karen Bailey

Address: 1750 AMSTERDAM AVENUE
MANHATTAN, NY 10031

Main Phone: 212-927-8811

School Type: Elementary

Enrollment: 975

The NYC School Progress Report informs families about the school's strengths and weaknesses, emphasizing how far students have come in the past year. Progress Report grades are made up of three sections: student progress, student performance, and school environment. In each section, your school's results are compared to the results of other schools serving similar students. To view your school's Progress Report in detail, visit ARIS Parent Link at arisparentlink.org.

Progress Report Grade

A

Student Progress	40.1 out of 60 points		The student progress grade is based on the change in student scores on state tests in English Language Arts and Math between 2010 and 2011, compared to other students in the City who started at the same levels.
Student Performance	12.4 out of 25 points		The student performance grade is based on the results of students in your school on 2011 state tests in English Language Arts and Math.
School Environment	9.6 out of 15 points		The school environment grade is based on student attendance and your school's NYC School Survey, where parents, teachers, and students rate academic expectations, safety and respect, communication, and engagement.
Closing the Achievement Gap	6.0 (15 points max)		Schools receive extra points if they make exceptional gains with students with disabilities, English Language Learners, and students with the lowest proficiency citywide.

Overall Grade

68.1 out of 100 points

The overall grade is based on the total of all scores above, including additional credit.

Page 2

What's new on this year's Progress Report?

The Progress Report this year is very similar to last year. There are a few additional measures on this year's Progress Report. As part of a citywide initiative to expand opportunities for underserved Black and Hispanic males, the Progress Report now awards additional credit to schools that are raising the achievement of these students.

We are also working to make classrooms more inclusive for students with disabilities. The Progress Report now awards additional credit to schools placing students with disabilities in less restrictive environments.

What are schools doing to get students ready for college and careers?

Students who learn to solve problems and think critically are more likely to graduate from high school ready for college. New York and many other states are transitioning to new learning standards, called the Common Core standards, designed to prepare all students for success in college and careers. Teachers are already beginning to integrate these new standards into class work. To learn more about Common Core standards, ask your child's teacher or visit our Common Core Library online at <http://schools.nyc.gov/Academics/CommonCoreLibraryFamilyResources>.

As we continue to work toward graduating students who are college and career ready, we are setting specific, instructional expectations for this school year. Principals and teachers are preparing to strengthen student work by examining and refining what students are learning, how they are learning, and how they are being tested on what they learn. We are also working to develop excellent teachers in all of our schools by examining and refining the feedback teachers receive about their work.

How many schools earned each grade?

Like last year, Progress Report grades are determined by a set distribution. This means that a certain number of schools receive each grade.

- The top 25% of elementary schools received As
- The next 35% received Bs
- The next 30% received Cs
- The next 7% received Ds
- The bottom 3% received Fs

What happens if a school receives a low grade?

Strong Progress Report results are the basis for rewards for school leaders and poor results are an important factor in determining support and intervention needs for schools. If a school receives a D or an F, it indicates that students in that school are demonstrating a slower pace of learning and progress than students at similar schools.

If your child's school received a low grade, take the opportunity to ask the school's principal, parent coordinator, and staff members about plans for improving. The Department of Education closely monitors schools that receive Ds, Fs, or Cs or worse for three years in a row. These schools are evaluated and considered for intensive support or intervention.

How can I learn more about my student's academic performance?

You can keep track of your child's daily attendance, schedule, and test scores on ARIS Parent Link at www.arisparentlink.org. ARIS Parent Link is available in ten languages and has information about ways to support your child in school. Contact the parent coordinator at your child's school if you have questions about logging on or need your password.

To contact your school's principal or parent coordinator, call the main office. You can reach this school's main office by calling 212-927-8811.

HOW CAN I FIND THE PROGRESS REPORT FOR A SCHOOL?

- Progress Reports and Progress Report Overviews are located on each school's home page on the NYC Department of Education Web site under 'Statistics'
- Families can access Progress Reports and Progress Report Overviews for their children's schools through ARIS Parent Link:
<http://arisparentlink.org>
- You can search for individual schools' Progress Reports and Progress Report Overviews, find information about the Progress Report methodology, and view historical Progress Report results at:
<http://schools.nyc.gov/ProgressReport>

PROGRESS REPORTS

1. Overview

2. Measuring student performance and progress for elementary and middle schools

3. Measuring progress and performance for high schools

4. Evaluating the school learning environment

5. Peer and city comparisons

6. Additional credit for closing the achievement gap

7. Translating scores into grades

ES/MS STUDENT PERFORMANCE AND PROGRESS

- The Progress Report rewards progress for students at all levels of performance

Scaled scores

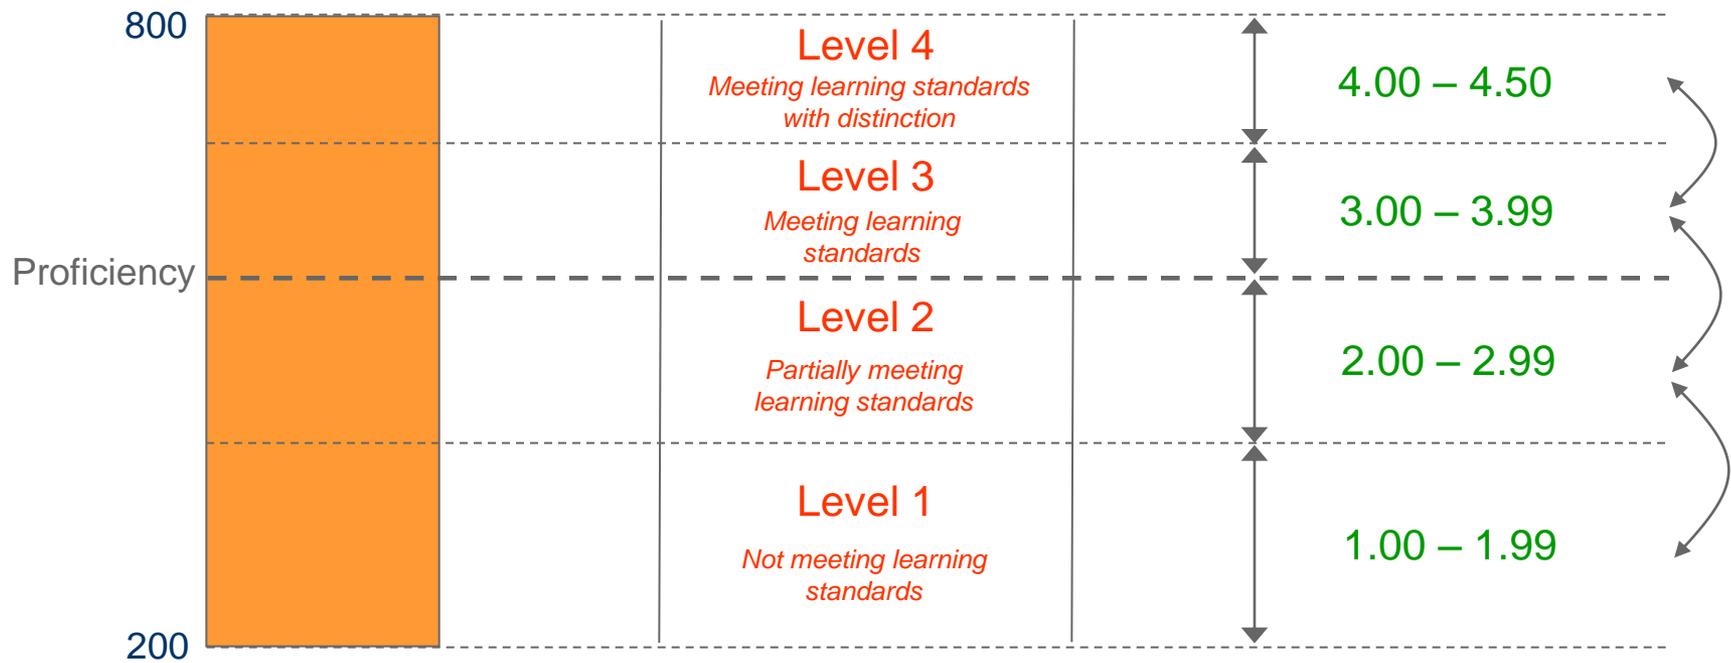

State ELA and Math tests are graded on a scale of 200 to 800

Performance levels

The State decides what scaled scores correspond to each performance level (1, 2, 3, or 4)

Proficiency Ratings

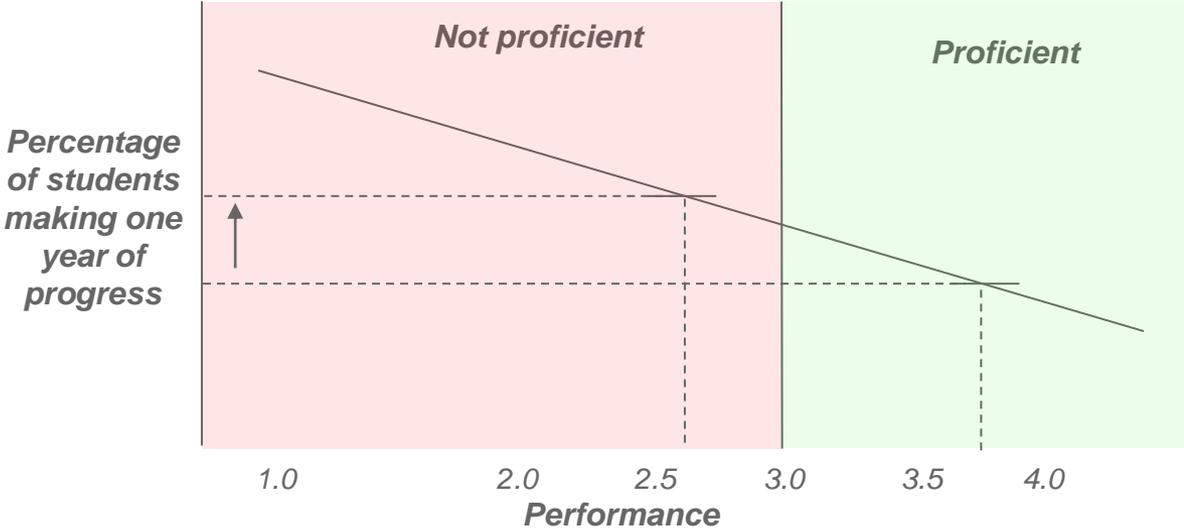

The City uses a more precise translation to distinguish among students at each performance level

Different cohorts of students

Same cohorts of students

THE PROGRESS-PERFORMANCE RELATIONSHIP: MORE LOW PERFORMING STUDENTS MAKE ONE YEAR OF PROGRESS THAN HIGH PERFORMING STUDENTS

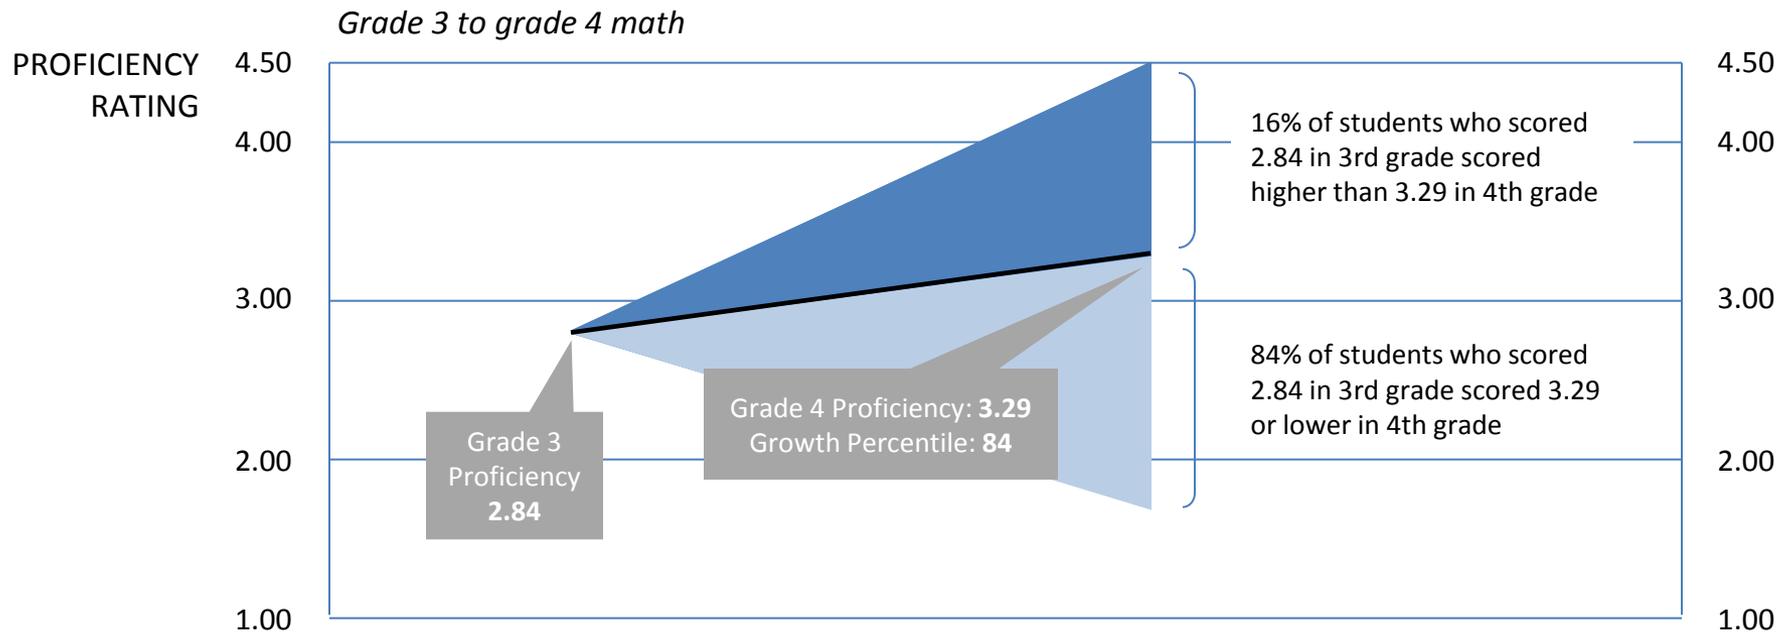

GROWTH PERCENTILES DEFINED

A student's growth percentile compares his or her growth to the growth of all students in the City who started at the same level of proficiency the year before

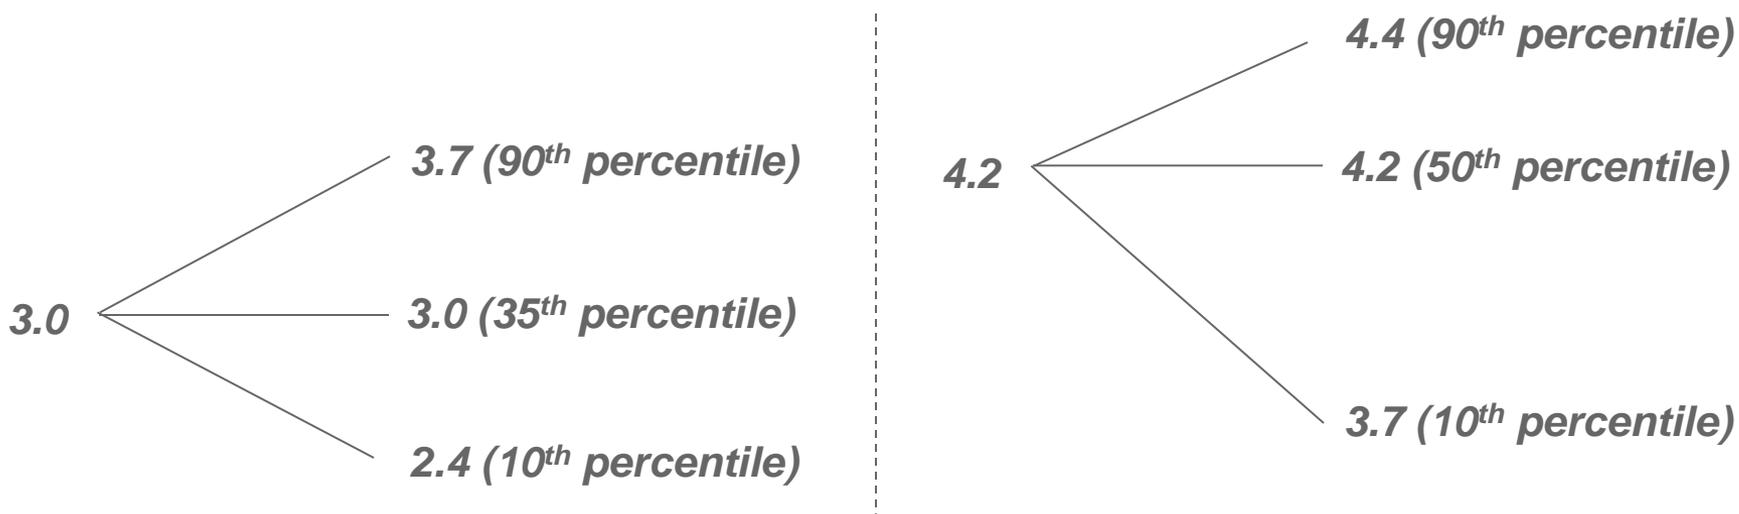

A 50th percentile outcome means that a student made more growth than 50% of the students who started at the same place

GROWTH PERCENTILES CONTROL FOR A STUDENT'S STARTING PROFICIENCY

A student with a growth percentile of 84 earned a score on this year's test that was the same or higher than 84 percent of the students in the City who had the same score last year

GROWTH PERCENTILES MEASURE PROGRESS ON THE SAME SCALE EVEN IF STUDENTS START FROM DIFFERENT PLACES

Going from a 3.0 to a 3.0 may be a 35th percentile outcome, while going from a 4.2 to a 4.2 may be a 50th percentile outcome.

GROWTH PERCENTILES ARE ADJUSTED BASED ON STUDENTS' DEMOGRAPHIC CHARACTERISTICS

These adjustments reflect average differences in growth compared to students with the same starting proficiency level. The adjustments are made to students' ending proficiency rating as follows:

CATEGORY		ADJUSTMENT
Special Education	Self-contained	+0.25
Special Education	CTT	+0.15
Special Education	SETSS	+0.10
Title I Free Lunch		+0.01 per 10% of students eligible

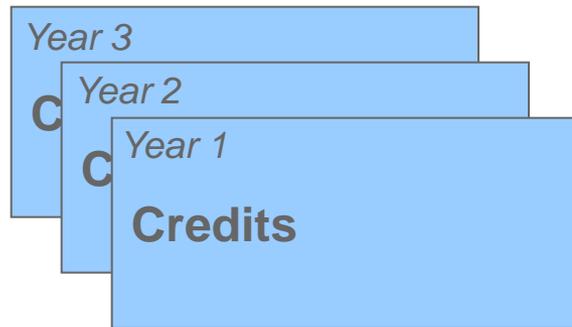

The Progress Report evaluates a school based on its median adjusted growth percentile, the adjusted growth percentile of the middle student when all the students' adjusted growth percentiles are listed from lowest to highest.

PROGRESS REPORTS

1. Overview
2. Measuring student performance and progress for elementary and middle schools
3. Measuring progress and performance for high schools
4. Evaluating the school learning environment
5. Peer and city comparisons
6. Additional credit for closing the achievement gap
7. Translating scores into grades

HS STUDENT PERFORMANCE AND PROGRESS

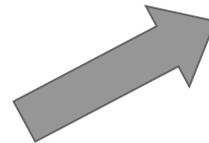

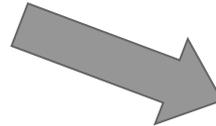

We measure graduation rates as well as the key performance indicators that track progress toward graduation

+

Regents
(completion and pass rates)

- | | |
|-------------------------------------|----------------|
| <input checked="" type="checkbox"/> | English |
| <input checked="" type="checkbox"/> | Math |
| <input type="checkbox"/> | Science |
| <input type="checkbox"/> | U.S. History |
| <input type="checkbox"/> | Global Studies |

Graduation

- Advanced Regents Diploma with Honors
- Advanced Regents Diploma
- Regents Diploma
- Local Diploma
- GED

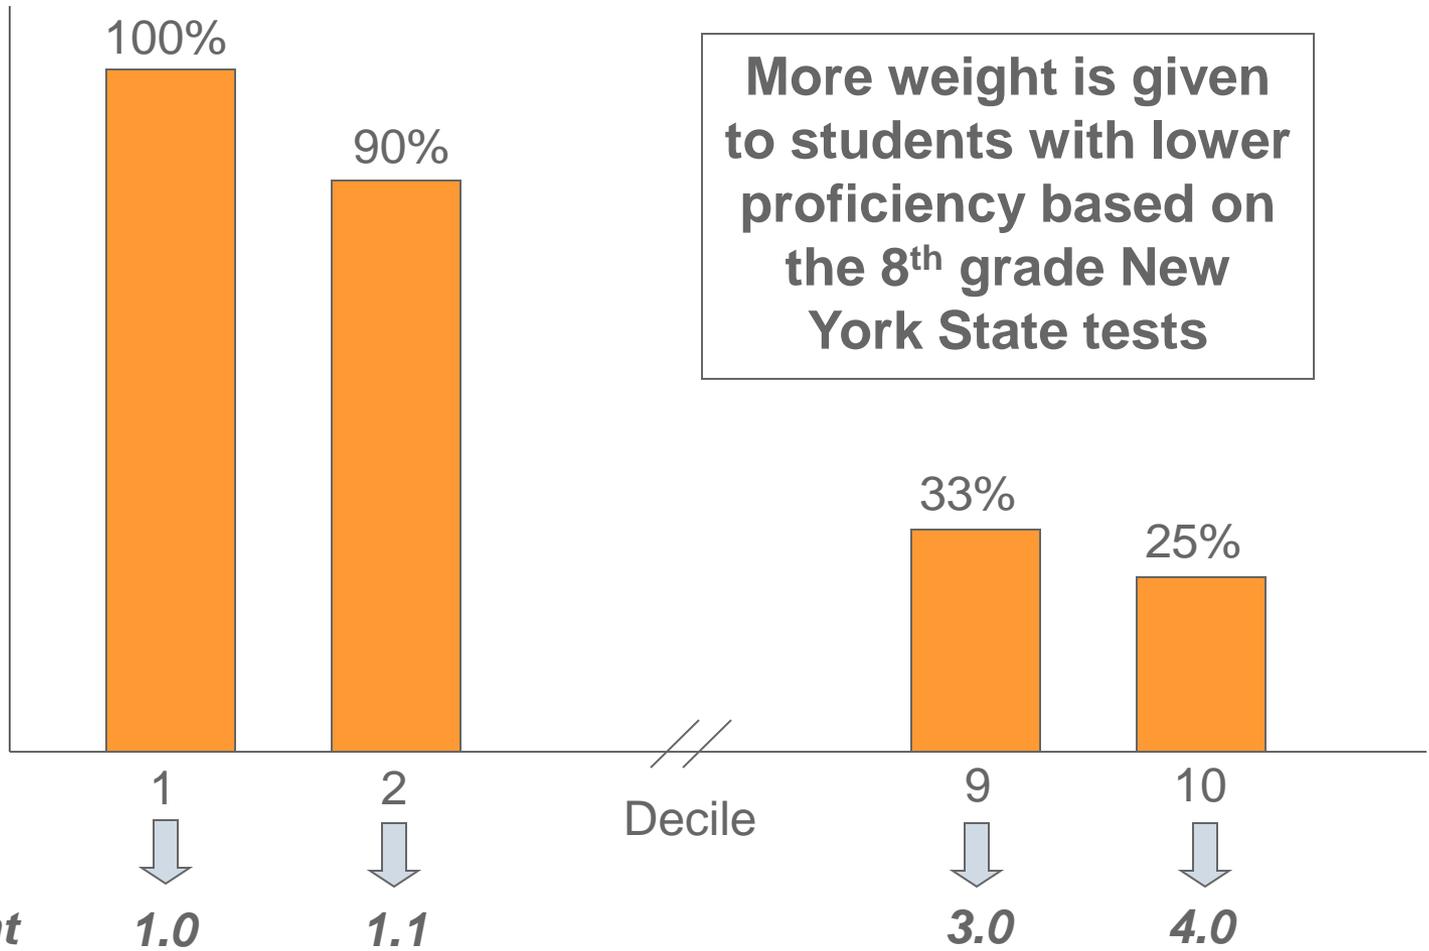

HIGH SCHOOL: WEIGHTED REGENTS PASS RATES

The Weighted Regents Pass Rates measure progress made since the 8th grade English, Math, Science, and Social Studies tests

Illustrative

“Expected”
Regents pass
rate based on

proficiency
(%)

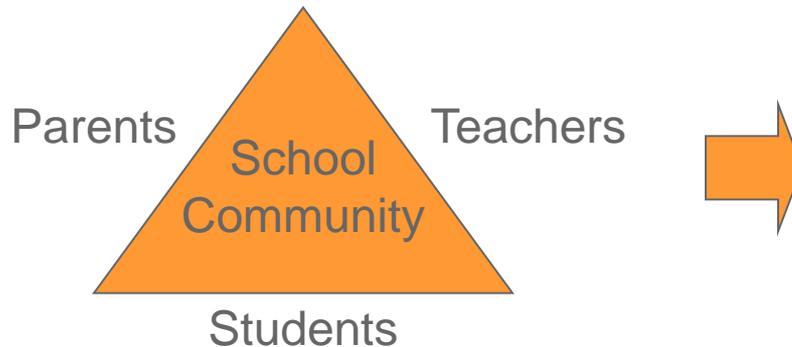

PROGRESS REPORTS

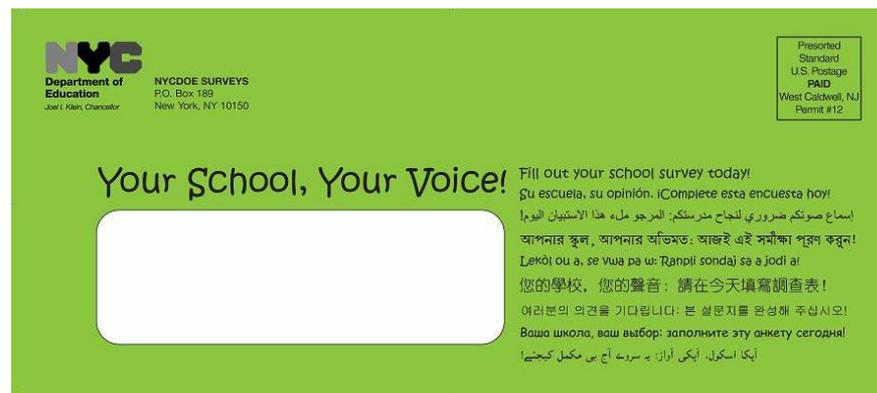

1. Overview
2. Measuring student performance and progress for elementary and middle schools
3. Measuring progress and performance for high schools
4. Evaluating the school learning environment
5. Peer and city comparisons
6. Additional credit for closing the achievement gap
7. Translating scores into grades

SCHOOL ENVIRONMENT – SURVEYS + ATTENDANCE

School surveys tell us about the learning environment at each school. Survey results contribute 10 points to the Progress Report. Student attendance contributes another 5 points.

1. Academic Expectations
2. Communication
3. Engagement
4. Safety and Respect

PROGRESS REPORTS

1. Overview
2. Measuring student performance and progress for elementary and middle schools
3. Measuring progress and performance for high schools
4. Evaluating the school learning environment
5. Peer and city comparisons
6. Additional credit for closing the achievement gap
7. Translating scores into grades

PEER GROUPS

- A peer group is a group of schools serving similar student populations in the same grade levels
 - > Peer groups consist of up to 40 schools
 - > Each school has a unique peer group (so each school can be in the middle of its peer group)
- Formula for elementary schools and K-8 schools:
 - > $30 \times \% \text{ eligible for free lunch} + 30 \times \% \text{ black and Hispanic} + 30 \times \% \text{ students with disabilities} + 10 \times \% \text{ English language learners}$
- Formula for middle schools:
 - > Average 4th grade English and math proficiency - $2 \times \% \text{ students with disabilities}$
- Formula for high schools:
 - > Average 8th grade English and math proficiency - $2 \times \% \text{ students with disabilities} - 2 \times \% \text{ in self-contained settings} - \% \text{ overage on entry to 9th grade}$

COMPARING RESULTS ACROSS PEER SCHOOLS AND THE CITY

Peer Horizon Scores (count 3X – 75%)

- Each school's performance is compared to the performance of schools in its peer group

City Horizon Scores (count once – 25%)

- Each school's performance is also compared to the performance of all schools Citywide

The peer comparison counts three times as much as the City comparison because we want to emphasize the relative performance of schools with similar student populations.

CALCULATING A SCORE USING PEER AND CITY COMPARISONS

	THIS SCHOOL'S RESULTS	COMPARISON TO PEER SCHOOLS (WEIGHTED 75%)	PERCENT OF PEER RANGE	COMPARISON TO CITY SCHOOLS (WEIGHTED 25%)	PERCENT OF CITY RANGE	POINTS POSSIBLE	POINTS EARNED
English							
Median Adjusted Growth Percentile (n=277)	69.0		58.3%		50.9%	15	8.47

The *points earned* for each metric is:

$$\left[\left(\frac{\text{percent of}}{\text{peer range}} \right) \times 0.75 + \left(\frac{\text{percent of}}{\text{city range}} \right) \times 0.25 \right] \times \left(\frac{\text{points}}{\text{possible}} \right)$$

In this example:

$$[0.583 \times 0.75 + 0.509 \times 0.25] \times 15 = 8.47$$

PROGRESS REPORTS

1. Overview
2. Measuring student performance and progress for elementary and middle schools
3. Measuring progress and performance for high schools
4. Evaluating the school learning environment
5. Peer and city comparisons
6. Additional credit for closing the achievement gap
7. Translating scores into grades

THE PROGRESS REPORT REWARDS SCHOOLS THAT CLOSE THE ACHIEVEMENT GAP

- Schools can earn additional credit for closing the achievement gap with high need populations
- Elementary/Middle/K-8 Schools earn additional credit through exemplary gains on State tests, with their high need populations
- High Schools earn additional credit through exemplary gains based on graduation outcomes of their high need populations

3 Focus Populations

1. English Language Learners
2. Students with Disabilities
3. Students in the Lowest Third Citywide

ADDITIONAL CREDIT SECTION METRICS AND POINT VALUES

ES/MS (up to 1 point each)	HS (up to 2 points each)
<p><u>% at proficiency or above</u></p> <ol style="list-style-type: none"> 1. ELA – SETSS 2. ELA – CTT 3. ELA – Self-contained 4. Math – SETSS 5. Math – CTT 6. PROGRESS REPORTS

1. Overview
2. Measuring student performance and progress for elementary and middle schools
3. Measuring progress and performance for high schools
4. Evaluating the school learning environment
5. Peer and city comparisons
6. Additional credit for closing the achievement gap
7. Translating scores into grades

TRANSLATING SCORES INTO GRADES

- High schools earn grades by achieving a total score over a certain threshold:
 - > A – 70 points; B – 58 points; C – 47 points; D – 40 points; F – less than 40 points
 - > Any school achieving the score threshold for a grade earns that grade, regardless of how many other schools earn the same grade
- As state tests continue to evolve, we have employed a set grade distribution for elementary, middle, and K-8 schools.
 - > 25% A, 35% B, 30% C, 7% D and 3% Fs
- Top Performance rule:
 - > Schools in the top 33% (in terms of 4-year graduation rate or ELA and Math performance) can receive no lower than a “C”
